### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed 25 August 2003 are persuasive. In particular, Schob does not teach "a single radial pole assembly for generating a radially polarized magnetic field" (claims 1 & 6) but rather two pole assemblies 3 and 4 (Fig.1). Neither does Schob teach "first and second arcuate members each comprising a plurality of separate magnetic segments" (claims 1, 6 and 11) as best seen in applicant's Figs.3-4. The remaining prior art of record do not remedy these deficiencies.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Drawings***

3. The drawings filed 20 February 2002 are acceptable; however, the examiner notes they are informal, as evidenced by the reference numbers. Applicant is required to submit formal drawings.
